“Linking Today’s Workforce With Tomorrow’s Jobs”

What is WAGE?

The Arkansas Workforce Alliance for Growth in the Economy™ (WAGE) Program was developed by the Arkansas Department of Career Education, Adult Education Division.

How Does WAGE Work?

WAGE is business and industry driven. Local business and industry partners give added consideration in hiring to WAGE Certificate holders.

Three Types of Certificates

- ◇ Industrial
- ◇ Clerical
- ◇ Employability
- ◇ Bank Teller
- ◇ Customer Service

How Much Does It Cost?

The WAGE training is completely FREE to business and industry partners, incumbent workers, and those seeking employment. The only cost is the time one chooses to invest. This is an excellent program for those who are seeking additional job skills or would like to change occupations.

When Does the Training Start?

It is flexible – Participants can enroll any time and exit when individual goals are completed.
